I used to play MA 18+ games daily. As research shows this impacts heavily upon the mind. I have found that playing these types of games almost destroys my relationships with family and friends. I became angry, aggressive and depressed after playing for extended periods. For these reasons I have stopped playing. Minors who wish to play these types of games do not understand the effect it has on their relationships. Most parents don't realise the effect that these games have on their children and let most kids buy whatever games they want, so allowing these games in ~~was~~ with a restriction won't mean that minors will not play them.
