

EMERGENCY MANAGEMENT

FOR SCHOOLS

WebQuest Task

In groups of 4, one team member will be required to research and report on the disaster from differing perspectives within the community. Decide which area each member is going to research.

- **Preparation** – how prepared were the community for the disaster? Were the local government, council involved in preparing for this type of disaster?
- **Prevention** – What plans were in place for such an event? Explain the role of the local council.
- **Response** – Who was involved in the response to the disaster? What did they do, what were the different roles that people had in the recovery teams?
- **Recovery** – Who was involved in getting the community back in order? What did they do, who did they involve, what was the cost to the community?
